AI builder price cheat sheet

VibeCost · getvibecost.com/cheat-sheet/ · Figures come from each official pricing page. If a number is missing, we write not read. Units are not comparable across tools. Tools follow our comparison table order, not a ranking. Prices last checked November 10, 2026.

Free tiers, cheapest paid plans and credit rules for the 8 AI app builders VibeCost tracks. Prices checked November 10, 2026.

TOOL	FREE TIER	CHEAPEST PAID PLAN	CREDIT AND USAGE NOTES	LINK
Lovable Checked November 10, 2026	5 daily build credits, capped at 30 a month, plus 20 Cloud, 4 AI and 1 connector credit a month. Daily chat allowance size: not read.	Pro (100 credits), $25 a month, or $21 a month billed yearly. It includes 100 subscription credits a month.	Daily build credits do not roll over day to day. The monthly cap applies on Free only. Top-ups on Pro are $15 per 50 credits.	lovable.dev/pricing
Bolt Checked November 10, 2026	1 million tokens a month, with a 300,000 daily limit. Hosting and Bolt branding are included. The upload limit is 10MB.	Bolt Lite is $9 a month. Sign-ups were described as closing October 14, 2026. Pro is $25 a month and starts at 10 million tokens a month.	Daily tokens do not roll over. Free tokens reset on the 1st of the calendar month. Unused Pro tokens roll over about one extra month, and stay valid up to 2 months. Exact Lite token allotment: not read.	bolt.new/pricing
Replit Checked November 10, 2026	Starter includes a daily Agent allowance, limited monthly cloud credits, basic Agent and 1 published app. Exact daily Agent cap: not read.	Core, $20 a month, or $18 a month billed yearly. It includes $20 toward usage each month.	Credits do not roll over on Core, per Replit docs. Unused Pro credits roll over for two months, per Replit docs.	replit.com/pricing
v0 (Vercel) Checked November 10, 2026	Free includes 7 messages a day. New users get $5 in credits once. Existing Free users keep a $5 monthly allowance, per v0 docs.	Plus, $30 a month per user, plus $2 in free daily credits on login.	Unused monthly credits roll over and expire after 65 days, per v0 docs.	v0.app/pricing
Base44 Checked November 10, 2026	25 message credits a month and 100 integration credits a month, with up to 5 apps. Docs also note 5 message credits a day, up to 25 a month.	Starter, $20 a month, or $16 a month billed yearly. It includes 100 message credits and 2,000 integration credits a month.	Credit expiry: not read. Annual billing saves 20%.	base44.com/pricing
Hostinger AI Builder Checked November 10, 2026	No standalone free plan was listed on the pricing page we checked.	Premium, $12.99 a month. A 48-month promo is $1.99 a month ($95.52 for 48 months). It renews at $10.99 a month.	Plan cards list one-time gift credits. Premium shows 250, or 500 on a Black Friday offer whose end date is not stated. Ongoing monthly credit allotment: not read.	hostinger.com/ai-builder/pricing
Cursor Checked November 10, 2026	Limited agent and chat requests. Exact free allowance: not read.	Plus, $8 a month, or $80 a year. It includes a base weekly usage pool for Cursor and Grok models.	The weekly pool refreshes each week. Absolute size of the Plus weekly pool: not read.	cursor.com/pricing
Windsurf / Devin Desktop Checked November 10, 2026	Limited Devin usage, plus Devin Review and DeepWiki. Exact free allowance: not read.	Pro, $20 a month. A yearly price is not shown on the pricing page we fetched, so yearly: not read.	Pro has a daily and weekly usage quota. Exact quota size: not read. On-demand credits past the quota never expire.	devin.ai/pricing
